

EV Mobile Charger

Compact and Affordable

Designed for temporary home use and on-the-go charging.

EVbee is an enterprise engaged in the R&D, design, manufacturing, and sales of electric vehicle charging solutions (public chargers, home chargers, portable chargers, EV charging cables, etc.).

Features

Travel Friendly: Plug & Play

The ultimate travel companion, the EV Mobile Charger is designed for the modern adventurer, offering hassle-free charging on the go. Simply plug in and start charging wherever you are.

Seamless App Integration

Easily control and monitor your charging sessions from your smartphone or tablet, whether you're at home or on the go. Adjust charging current and monitor real-time charging data to tailor your charging experience.

Adjustable Current & Scheduled Charging
Take control of your charging with
adjustable charging current, scheduled

charging and the ability to monitor realtime data with ease.

Technical Data

	Main Product	3.5kW
General	Dimensions (mm)	L232 x W76.5 x D51.8
	Weight	2.24kg
	Cable Diameter	11.7mm
	Cable Length	6.5m
	Operating Temperature	-30°C to +55°C
	Storage Temperature	-40°C to +80°C
	Material Charging Unit	PC
	Certifications	TUV/CE/UKCA
Charging	Charging Power	3.5kW
	Charging Current	16A (single-phase)
	Voltage	230V
	Connector Type	Type 2
	Charging Plug	Schuko/UK
Interface	User App and Configuration	EVbee home (bluetooth)
	Charging Status	LED
Installation	Grid	TN/IT/TT
	Upstream RCD	30mA AC + 6mA DC
Safety and Protection	IP Rating	IP66
	IK Grade	IK05
	Fire Classification	UL94-V0
	Temperature Monitoring	PC
	Standard	IEC 62752
	Warranty	3 years
