

# AIR-COOLED ALL-IN-ONE DC CHARGER

## EFFICIENCY AND APPLICABILITY

- Maximum output of 320kW with 150V-1000V voltage range, suitable for high power CPOs, fleet operators, truck charging and logistic centers
- Modular design supports future expansion, suitable for various charging scenario applications

## CUSTOMISATION

- Options for customised colors and branding

## SUPERIOR CUSTOMER EXPERIENCE

- Intuitive user interface with 15.6' display screen
- Multi-language operation system
- Multiple payment options: POS, RFID, NFC, APP, QR Code, AutoCharge, ready for Plug & Charge
- Cable management system

## INTELLIGENT MANAGEMENT

- Remote monitoring and maintenance
- Featuring load balance and dynamic load management to optimize grid utilization

## RELIABILITY & SAFETY

- Comprehensive protections to ensure charging safety
- Compliant with CE, CB, RoHs

## ELECTRICAL PARAMETERS

|                                    |  |
|------------------------------------|--|
| Output Power                       | 160KW / 240KW / 320KW  |
| Maximum Current (CCS Cables)       | 500A MAX 600A DC (Liquid cooled)<br>400A MAX 500A DC<br>250A MAX 400A DC   |
| Cable Length                       | 3.5 m, Optional: 5.0 m / 7.0 m   |
| Distribution Systems               | TN-S, TN-C (UK), TN-CS   |
| Protection                         | Overcurrent, Overvoltage, Undervoltage, Grounding protection, Polarity reverse protection, Scram protection, Grounding protection, Leakage protection, Door opening protection, Impact protection, Smoke sensing protection, Water immersion protection, Tip-over protection, etc. |
| Power Factor (Half load and above) | ≥ 0.99   |
| THDi                               | ≤ 5%   |
| Efficiency                         | 96% (Peak)   |
| Standby Power                      | ≤ 40W  |
| Energy Metering                    | Standard: Meter for DC outlet (MID / LNE, PTB available in 2025 Q4)  |
| Connectivity                       | Internet access via 3G/4G, Ethernet  |

## USER INTERFACE

|                         |   |
|-------------------------|---|
| User Authentication     | POS, RFID, NFC, APP, QR Code, AutoCharge, ready for Plug & Charge |
| User Interface          | 15.6" LCD high-contrast display screen+4 buttons                  |
| Communication Protocols | OCPP1.6J (ready for 2.0.1 or 2.1)                                 |
| RFID Reader             | ISO/IEC 14443A+B, ISO/IEC 18092, ISO/IEC 15693 Support            |
| Emergency Button        | YES   |
| Language System         | English, French, German, Spanish, Portuguese, Italian, Arabic     |

## GENERAL CHARACTERISTIC

|                        |   |
|------------------------|---|
| Protection Rating      | IP54 and IK10 (cabinet) / IK08 (screen)             |
| Operating Altitude     | H≤2000m   |
| Operating Temperature  | -30°C to 55°C, Up to 55°C to 70°C derated operation |
| Storage Temperature    | -40 °C to 80 °C                                     |
| Humidity               | 5%RH-95%RH, non-condensing                          |
| Dimensions (D x W x H) | 1120*550*2000mm(without CMS)                        |

## COMPLIANCE STANDARDS

|                         |  |
|-------------------------|--|
| EU directive            | 2014/32/EU (MID), 2014/35/EU (LVD), 2014/30/EU (EMC), 2014/53/EU (RED), 2015/863/EU (ROHS)   |
| Communication to the EV | DIN 70121, ISO 15118-2, Autocharge, Plug and Charge  |
| Electrical safety       | IEC 61851-1, IEC 61851-23, IEC 61851-24  |
| RED                     | ETSI EN 301 908-13 V13.2.1: 2022<br>EN 300 330 V2.1.1: 2017, ETSI EN 301 489-3 V2.1.2: 2021,<br>EN 301 489-52 V1.1.2: 2022, EN 50364:2018, EN IEC 62311:2020 |
| EMC                     | IEC 61851-21-2 (INDUSTRIAL -ENVIRONMENTS), ETSI EN 301 489-1   |

The product configuration is for reference, and the actual configuration may vary depending on actual sales
